

## **ROLL CAGE INSTALLATION**

Please read instructions completely before beginning installation.

1. Inspect cage for shipping damage and report any issues immediately.
2. Remove factory cage and any accessories attached to factory cage. **\*RETAIN FACTORY CAGE HARDWARE\***
3. Mojo Cages are designed to be installed starting at the A-Pillar (front near hood).
4. Install front A-Pillar bolts through Mojo Cage bungs. Install nuts, but do NOT tighten.
5. Install B-Pillar cage hardware. Do NOT tighten.
6. Install C-Pillar cage hardware. Do NOT tighten.

*\*Due to OEM inconsistencies, it may be necessary to use an alignment spud to help align bolt holes.*

If you have any questions or need help installing your Mojo Cage please feel free to call us at 1-877-MOJO-USA.

Thank you for purchase!
